— QUALITY & DESIGN —

Simplicity, functionality, minimalism, ecology and the best possible quality are the core values of Scandinavian design philosophy, but what makes it so compelling and especially popular in the modern day society is the respect, attention and no nonsense attitude towards humanity and the environment. Scandinavian design means things that just make sense! They make life easier, more comfortable, enjoyable and greener... More hygge! These principles are also the base of our approach to design.

The KØBENhagen OUTstanding furniture line was inspired by the city that has been ranked as one of the best cities to live in for many years running:
- Copenhagen!

But we know it from experience - it is the home city of our founding fathers and the birthplace of our company.

/ Versatility

We have a pleasure to introduce the new series of stylish outdoor furniture. The products are made from the highest quality materials. Their modern design will fit perfectly into the contemporary urban architecture.

To meet your standards and requirements our products are available in many different sets of colors. We can create a beautiful and functional outdoor space that will correspond with the modern city area and bring people together!

/ Construction

These products have been designed according to the highest standards. The construction is durable, sturdy and can withstand heavy use. It's suitable for both outdoor and indoor. All the construction and joint elements are hidden from the view to achieve a luxurious, high-end product.

**KØBEN HAGEN

/ LARCHWOOD
/ OAK

/ POWDER COATED STEEL

/ Materials

All our lines are designed in three main materials: impregnated larchwood, impregnated oakwood and powder coated steel. You will find information about used materials in the second letter of the catalogue number of each product.

/ L : LARCH wood

/ O : OAK wood

/ - : no second letter - construction without wood

We only use wood from responsible sources. The paints and impregnats are safe and non toxic. All the used materials are environment friendly and used in a respectful way for economical and ecological reasons.

Our company manages waste responsibly and implements the UN 17 sustainable development goals in everyday life.

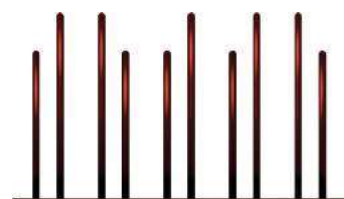

The first letter of the catalogue symbol that can be found next to each product specifies the type of foundations:

/ F : construction elements go into the ground - items require groundwork and concrete foundation, but it can be installed on loose terrain, such as beach or park.

/ S : the item can either be freestanding or attached to the concrete slab with a chemical anchor

All our products can also be safely installed on rooftops. You can specify the foundation type yourself or contact us to discuss the best solution depending on your specific project.

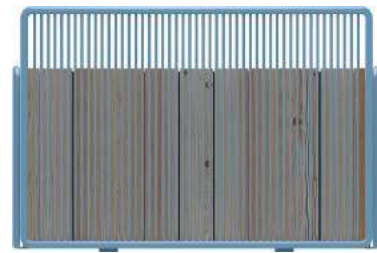

/ 61416-S SYDHAVN

/ Installation

We use two types of foundations. All of our products can be delivered with either one of them, depending on your specific needs. Our products are versatile when it comes to installation, but some foundations require special preparation, so the choice should be made before purchase. Always consider what type of surface, ground-work, base material, layers and foundations need to be applied in your project. If you have any questions on that matter do not hesitate to contact us and consult any technical issues.

Did you know that:

"Den lille havfrue"
The little mermaid
is the most famous
Danish monument.

— INDRE BY —

/ POWDER COATED STEEL
/ LARCH WOOD

The INDRE BY line is classic and modern at the same time. A splash of color from the side, simple and light from the front. The high backrest sofa benches offer extra comfort and the bar set will make a great meeting point before a night out on the town. With wide range of items this line is a perfect accessory for even the busiest city centers. Its classic and simple shapes blend in well with colorful backgrounds.

Did you know that...

Kødbyen was originally The Meatpacking District in Copenhagen. Now it has changed into a cluster of new and creative galleries, restaurants, bars and night clubs.

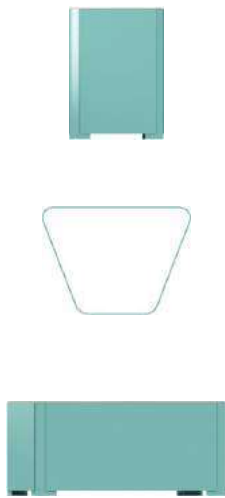

— KØDBYEN —

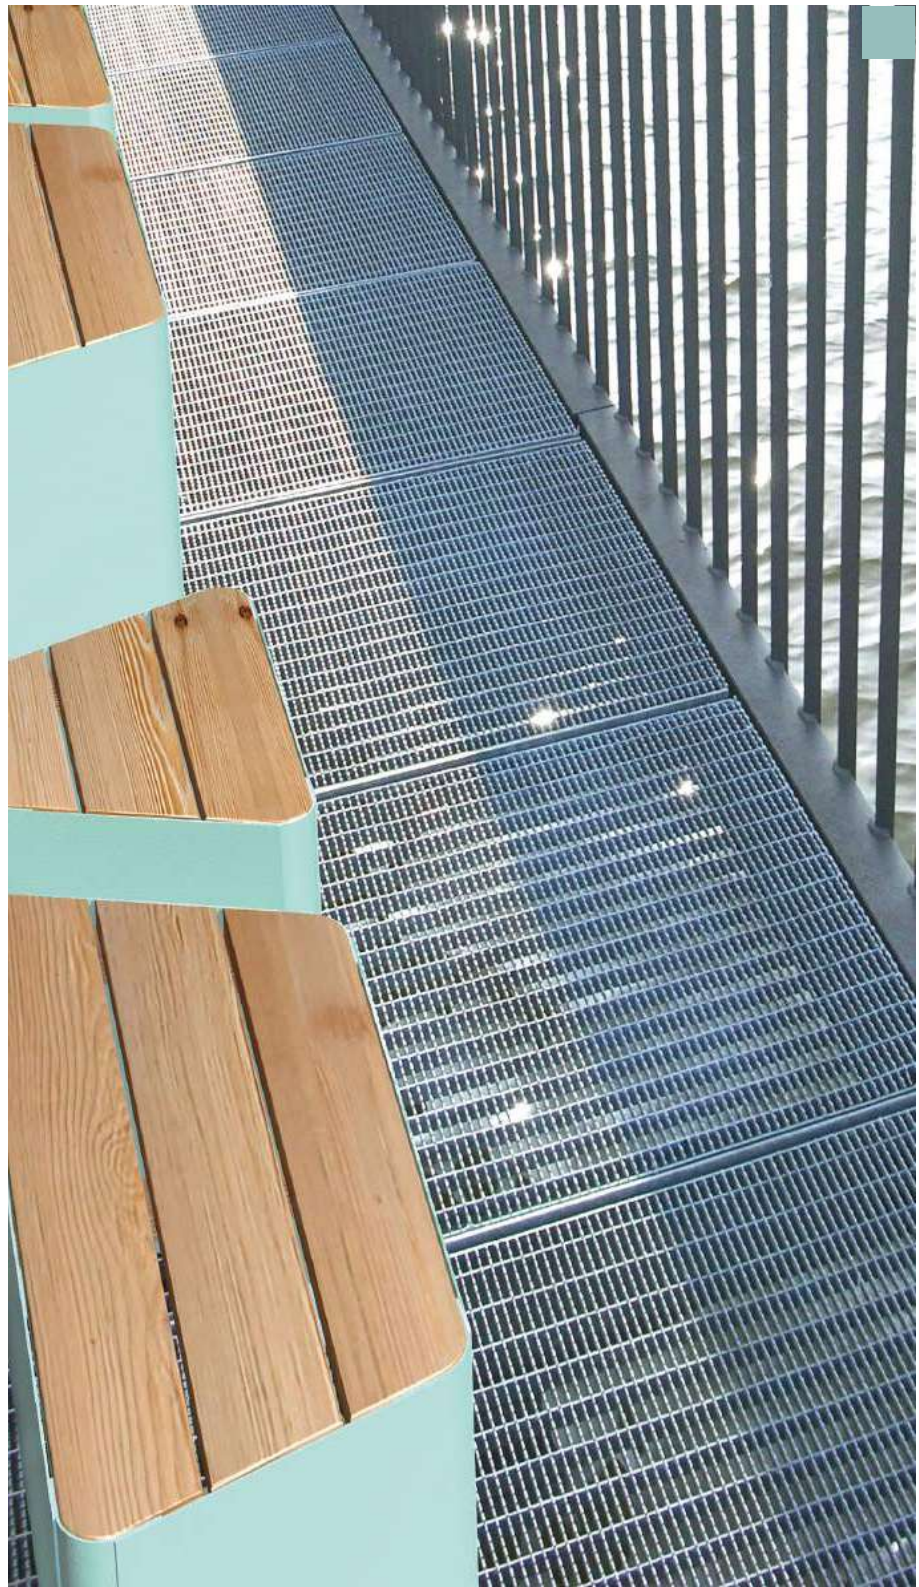

/ POWDER COATED STEEL
/ LARCH WOOD

Simple, yet original, rounded shapes of the KØDBYEN line are almost like an art installation. Bent stainless steel contrasts with the wood to give these products the unique feeling of being modern and cozy at the same time. Kødbyen is hip and cool, but also comfortable and low maintenance. Make it extra special by choosing a color that will stand out!

Did you know that...

It approximately rains 179 days
out of a year in Denmark...
...but every weather is good for cycling!

— ØSTERBRO —

/ POWDER COATED STEEL
/ LARCH WOOD

The light and airy ØSTERBRO line has plenty to offer - benches, sofas, tables, bicycle stands, and plant cases - it is all a comfortable residential area requires. Its construction is modern but has a delicate and almost lacy feeling. The simplicity of the design corresponds well with modern architecture and the light wood surfaces give a warm and inviting feeling.

is "HYGGE"
meaning: COZY

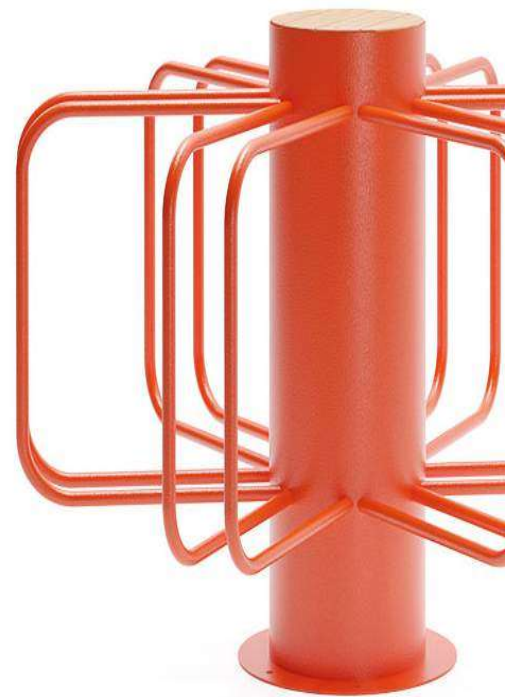

— VALBY —

/ POWDER COATED STEEL
/ LARCH WOOD

The VALBY line is fun and truly modern. With its shapes, you can create many arrangements that will not only serve many users at the same time but also have a playful character of an abstract playground installation. Add these colorful objects to your project and watch it bring people together. Let it be a feature piece of the community meeting point! VALBY is suitable for both indoor and outdoor installation.

Did you know that...

Holmen is The Naval Station
of Copenhagen. During the Cold War
it was The Royal Danish Navy's main base.

— HOLMEN —

/ POWDER COATED STEEL
/ LARCH WOOD

The clean lines of HOLMEN will go well in any surroundings. Natural impregnated larch wood, accentuated with elements of powder-coated steel makes these products classic and minimalist, but they are certainly not boring thanks to the original design of elements in perforated steel.

Did you know that:

"Freetown Christiania"

was an abandoned military base taken over during the hippie movement in the 70's and transformed into a commune of artists, anarchists, squatters and other freethinkers. It still remains a symbol of the hippie movement, freedom, sustainability, independence, and a community built with joint effort but where individuality can thrive.

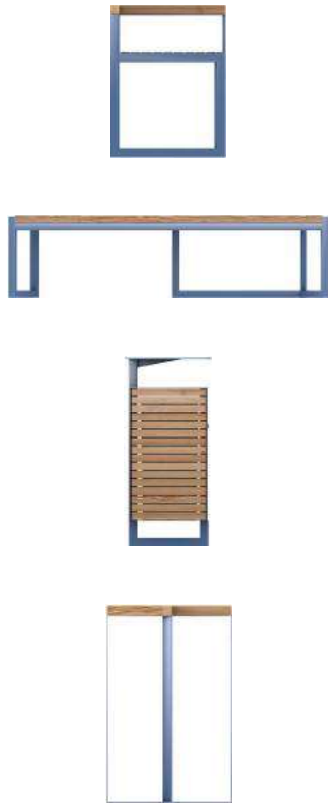

— CHRISTIANIA —

/ POWDER COATED STEEL
/ LARCH WOOD

The CHRISTIANIA line is simple and minimalist, perfect to blend in and underline any surroundings. It will be a perfect solution for both indoor and outdoor lounge areas, where you want to accommodate many users without overpowering the space with too many objects. Set the products in long lines to create a multitude of seating spots even in narrow places.

Did you know that:

Copenhagen houses “Bakken” and “Tivoli”
which are the oldest and second oldest
amusement parks in the world.

— VESTERBRO —

/ POWDER COATED STEEL
/ OAK WOOD

Modern, sophisticated and raw looking VESTERBRO line with large construction pieces in precious oak wood, that plays the most important role. We chose to bring it out with a minimalistic powder-coated steel elements which gives the line its wow factor. Contemporary and fashionable Vesterbro is at the same time warm and inviting thanks to the use of oakwood. With time the wood will take on a rustic look and become even more durable.
